

ROUTE 160

NOVEMBER 13, 2012

Project Description:

The project will improve Route 160 approximately from Route JJ to Route 67. The improvements will consist of alternating passing lanes and the realignment of Route JJ, Route BB, Route M, County Road 160-34, and County Road 359 in order to improve sight distance. The project length is approximately 11.294 miles, and the purchase of right of way will be required.

Traffic:

The project will be built under traffic.

PROPOSED
ROUTE 160

Timeline:

Work is expected to begin in summer 2014 with completion anticipated by the end of 2015.
